CHURCH NOTES.

Baptist Notes.

The Bible school and preaching services Sunday morning were quite well attended, but the night services were "shy" of auditors. However, another good mid-week prayer service has restored the equilibrium. Not only was the attendance Wednesday night satisfactory; but the singing was above the average.

Prof. Pace has taken charge of the choir, and new life has been infused. We hope to have some special music at both services next Sunday.

A piano is the next thing we need after new pews.

Mrs. Margaret Moody is visiting her sister, Mrs. S. J. Simmons. She and her mother, Mrs. Humphries, have decided to make Monticello their home much to the regret of their many Arcadia friends.

David Scott, the genial teacher of the "corner class," has returned from his annual outing in Virginia. "Nuff said"—We expect a full corner next Tuesday morning.

Bro. Thos. White filled his regular appointment at Ogden last Sunday and protracted the meeting three days resulting in twenty additions to our church there.

Lost—Somewhere in Arcadia Saturday afternoon, Sept. 9th, a Pocket Book containing about \$45.00. One \$20 bill, two \$10 bills, one \$1 bill, besides some silver. Pocket book also contained a receipt for \$8 to Robt. J. Newberry from Chas. W. Forrester. Finder will be suitably rewarded and thanked upon returning same to Robt. J. Newberry, Arcadia, Florida.

The third annual convention of De Soto Camp No. 1403, U. C. V., will be held at Zolfo on Wednesday, October 4. There will be a big barbecue, and the good people of that hustling little city will do everything possible to make the occasion one of the pleasantest in the history of the camp. Ample provision has been made to feed all comers, and the public is cordially invited to be present.

Notice.

We desire to call the attention of the orange growers and farmers of DeSoto county to the fact that we have placed our agency in the hand of Mr. E. F. Childers, who will take pleasure in supplying all your wants.

We wish to express our thanks for your liberal patronage in the past and we hope that you will still continue to give us your order.

Ideal fertilizers are just what their name implies. They are the "Ideal" for the orange growers, they are the "Ideal" for the gardeners and farmers, and will give you full value for your money.

"Wouldst have abundant crops reward thy toil

And fill thy barns, O tiller of thy soil?

Then ever keep in mind this maxim true,

Feed well the land, and 'twill in turn feed you."

The Wilson & Toomer Fertilizer Co. Jacksonville, Fla.

I have for sale within the incorporated limits of Arcadia, desirably located, three tracts of land, fronting residence streets, and planted with fine bearing orange trees. One tract contains a good six room cottage, well built, 200 bearing trees and consists of two and one half acres. This tract I ask \$4000 for. The other two, each contain about 300 bearing trees each, but no buildings. Will sell at extremely reasonable figures. W. O. Ralls, Arcadia, Fla.

There is estimated to be 195,403 square miles of coal beds in the United States.

If you don't trade at the BRIDGE STORE and save your money, there will be more "Coal" Beds in Arcadia than this.

Anything You Want At THE BRIDGE STORE

BICYCLE PACEMAKER.

Mrs. A. L. Mormon, the professional millinery lady, has arrived and is located at S. J. Carlton's store.

Rev. J. A. Smith of Baxley, Ga. and Rev. Geo. S. Henderson of Denaud, Fla., have pitched their tent here and we hope it will prove a great blessing to this town. The meeting will continue about ten days.

Mrs. Mormon has just arrived from the leading markets where she has been buying fall millinery for S. J. Carlton. Mrs. Mormon is at the head of the department and will soon be showing the greatest line of correct millinery ever shown in South Florida. Mrs. Mormon's ability as a trimmer is second to none in the South. Look out for their opening in a few days.

MASTERS OF CARVING.

Our Ancestors Had a Vocabulary We Have Quite Forgotten.

What do we moderns know about carving? I say that I carve a pheasant when I divide it into two more or less equal portions. Not so our ancestors. Carving is an art. Let me quote from an old book on carving some of the terms of that art:

Remember that there were carving masters in those days, professors of the art. They were itinerants. They did not keep school. They went from house to house and taught the ladies. As for their social position, I have not ascertained it. Probably they were classed with the itinerant portrait painter. Certainly they did not sit at table with the gentlemen. I fear that their place was the kitchen and that Lady Mary took her lessons in that room surrounded by the admiring maids.

But the only thing she "carved" was mutton or beef. You had to "break a deer, rear a goose, lift a swan, sauce a capon, spoil a hen, frush a chicken, unbrace a mallard, unlance a cony, dismount a heron, display a crane, disfigure a peacock, unjoint a bittern, untack a curlew, alay a pheasant, wing a partridge or a quail, mince a plover, thigh a pigeon or any other small bird and border a game pie."

And the acquisition of these terms was only the beginning of knowledge. —London Queen.
